Dear Kwiyagat Community Academy,

It is my pleasure to support the efforts of the Kwiyagat Community Academy by providing mentoring and therapeutic support.

As a fluent Ute speaker and culturally knowledgeable Student Advisor, I can help students understand why it is essential to learn the culture and language of the Ute Mountain Ute Tribe. Teaching students the importance of the facets of Ute culture will help them as community members carry the language and culture into the future. Having Ute culture and language as the cornerstones of our curriculum will serve as an anchor point for students to understand who they are as a Ute people.

As we teach our young people, we often forget about the parents. As the Mógúán Behavioral Health Student Activities Coordinator, I will seek to serve the families holistically. Students and parents are essential to preserving the Ute Language and Culture, having evening classes and community support mechanisms will be available.

In closing, I wholeheartedly support the efforts of the Kwiyagat Community Academy as they seek to provide cutting edge and culturally-grounded education to the community.

Kind Regards,

Mark Wing
