## Report Context

Currently in Colorado, thirty-three school districts or BOCES authorize multi-district or single district online schools. Twenty of these districts or BOCES operate multi-district online schools. Multi-district refers to online schools that enroll students from multiple school districts in the state, while single district online schools enroll students living in their authorizing district only. A list of online schools compiled by the Colorado Department of Education informed the analysis summarized in this report.

## General Information about Online Schools

There are currently 48 operating online schools\* throughout the state of Colorado, including twelve single district online schools and thirty-six multi-district online schools. All twelve of the online charter schools are multi-district, two of which are Alternative Education Campuses (AECs). There are ten online AECs, with three operating under a single district and seven operating in multiple districts. Nine of the multi-district online schools (36.7% of online students) contract with an Education Service Provider (ESP), a for-profit entity that provides educational services. ESPs include Connections Education, K12, Inc., and Summit Education Group. **Appendix A** has the full list of school choices.

\*In Colorado, the number of schools is calculated according to the number of school codes associated with each contract. School codes are assigned, upon requests of the authorizer, as a school begins operating. Therefore, this count does not include online school programs as they are not considered schools.

2020-2021  
School Year:

**36 multi-district  
online schools**  
authorized by 21  
school districts  
(9 schools  
contract with an  
Education Service  
Provider)

**12 single district  
online schools**  
(2 are pending  
school codes)

**34 online school  
programs in 30  
school districts**  
(2 are pending)

## Online Education Options

- **Multi-District Online Schools** – Any student, regardless of the school district they reside in, may enroll in a multi-district online school.
- **Single District Online Schools** – Students enrolling in a single district online school must be a resident of the school district in which the school is located.
- **Online Programs** – Students must be a resident of the school district in which the school is located in order to enroll in an online program in that district. Online programs do not have school codes assigned and are not counted in online overall totals in this report.

For more information, consult CDE's website: <https://www.cde.state.co.us/onlinelearning>.

## Enrollment

### Total Student Enrollment over Time

The number of students attending online schools overall has increased by nearly 24% over the past five years (from 17,669 students in 2015-16 to 21,863 students in 2019-20).

Authorizers with the largest online school enrollment includes District 49, Education ReEnvisioned BOCES, Mapleton 1, Douglas County, Las Animas, and Byers 32J. District 49 has the largest enrollment overall with 5,546 students enrolling across the state. District 49 has three online schools in their portfolio all are multi-district online schools and one is a charter Alternative Education Campus (GOAL Academy). Total enrollment values can be seen in the table below.

### Authorizers with the Largest Online School Student Enrollment PK-12

School District Name	2015-16	2016-17	2017-18	2018-19	2019-20	5-Year Percent Change
District 49	4,591	4,327	4,434	4,738	5,546	20.8%
Education ReEnvisioned BOCES	1,969	1,600	2,246	1,186	2,836	44.0%
Mapleton 1	2,420	2,426	2,357	2,270	2,274	-6.0%
Douglas County Re 1	2,349	2,526	2,213	2,069	1,960	-16.6%
Las Animas Re-1	0	651	1,214	1,823	1,924	
Byers 32J	2,530	2,488	2,323	2,369	1,787	-29.4%
<b>Multi District and Single District Online Schools</b>	<b>17,669</b>	<b>18,561</b>	<b>19,359</b>	<b>19,326</b>	<b>21,863</b>	<b>23.7%</b>
<b>Colorado Overall</b>	<b>899,112</b>	<b>905,018</b>	<b>910,280</b>	<b>911,536</b>	<b>913,223</b>	<b>1.6%</b>

The ten online schools with the largest PK-12 enrollment in 2019-20 are shown below.

### Top Ten Highest Enrolling Online Schools (All are Multi-District Online Schools)

School Name	Authorizer	Levels Served	2015-2016	2016-2017	2017-2018	2018-2019	2019-2020	Trend	5-Year Percent Change	2019 School Performance Rating
GOAL Academy	District 49	H	4,070	3,764	3,811	4,153	4,965		22.0%	AEC: Performance
Colorado Connections Academy	Mapleton 1	EMH	2,420	2,426	2,357	2,270	2,274		-6.0%	Improvement
AIM Global	Las Animas RE-1	MH		533	1,095	1,708	1,796			AEC: Priority Improvement
HOPE Online Learning Academy Elementary	Douglas County Re 1	E	1,150	1,201	1,034	921	846		-26.4%	Priority Improvement
Colorado Connections Academy @ Durango	Durango 9-R	EMH		306	537	728	810			Improvement
Pikes Peak Online School	Ed. reEnvisioned BOCES	H			615	668	778			AEC: Performance
Colorado Preparatory Academy Elementary	Ed. reEnvisioned BOCES	E					714			Improvement
Colorado Preparatory Academy Middle	Ed. reEnvisioned BOCES	M					685			Improvement
Colorado Preparatory Academy High	Ed. reEnvisioned BOCES	EMH	1,364	1,384	1,631	518	659		-51.7%	Improvement
HOPE Online Learning Academy High	Douglas County Re 1	H	458	575	548	589	590		28.8%	AEC: Performance

GOAL Academy is the highest enrolling online school in the state, with nearly 5,000 students enrolled. GOAL Academy is designated as both a charter school and an Alternative Education Campus (schools must serve student populations comprised of at least 90% high risk students in order to receive this designation). Over the past five years, GOAL's overall enrollment has increased by 22%. Colorado Connections Academy, authorized by Mapleton 1 and contracted with a for-profit ESP called Connections Education, is the next highest enrolling on the list and it enrolls less than 2,500 students (half of GOAL's population). Enrollment has also decreased by 6%. For most online schools on this list, enrollment has decreased, other than for GOAL Academy and HOPE Online Learning Academy High School, authorized by Douglas County.

## Enrollment by Grade Level over Time

Student enrollment PK-12 for Online Schools has increased overall and at the 6-8 and 9-12 levels.

### Online School Student Multi District and Single District Enrollment by Grade Levels

Grade	2015-2016	2016-2017	2017-2018	2018-2019	2019-2020	Trend	5-Year Percent Change
PK-5	3,969	3,844	3,508	2,573	2,898		<b>-27.0%</b>
6-8	3,319	3,666	3,732	3,293	3,961		<b>19.3%</b>
9-12	10,381	11,051	12,119	13,460	15,004		<b>44.5%</b>
<b>Total</b>	<b>17,669</b>	<b>18,561</b>	<b>19,359</b>	<b>19,326</b>	<b>21,863</b>		<b>23.7%</b>

The largest increase in student enrollment over the past five years is for 9<sup>th</sup> through 12<sup>th</sup> grades, with a 45% increase over 5 years and a 24% increase over three years. The largest decrease is with Pre-Kindergarten through 5<sup>th</sup>, with a 27% decrease over a five-year period. Middle school grade levels have seen a 19% increase over the past five years, and a 6% increase in the past three years.

**Appendix A** shows 2019-20 enrollment values for every school.

## Charter Schools

### Online Charter Schools

There are thirteen charter schools in the school cohort. Below is a list of all thirteen charter schools and their enrollment over time:

#### Multi-District Online Charter School Enrollment

School Name	Authorizer	Levels Served	2015-2016	2016-2017	2017-2018	2018-2019	2019-2020	Trend	5-Year Percent Change	2019 School Performance Rating
Astravo Academy High School	Byers 32J	H	1,233	1,093	770	177	191			Priority Improvement
Astravo Academy Middle School	Byers 32J	M				175	200			Improvement
Astravo Online Academy Elementary School	Byers 32J	E				50	114			Insufficient State Data
Astravo Online Academy High School	Byers 32J	H	95	203	226	188	485			Insufficient State Data
Astravo Online Academy Middle School	Byers 32J	M				75	68			Insufficient State Data
Colorado Virtual Academy	Byers 32J	E	496	440	508	526	237		-52.2%	Improvement
Colorado Virtual Academy High School	Byers 32J	H	487	523	544	684	357		-26.7%	Improvement
Colorado Virtual Academy Middle School	Byers 32J	M	219	229	275	347	135		-38.4%	Performance
GOAL Academy	District 49	H	4,070	3,764	3,811	4,153	4,965		22.0%	AEC: Performance
HOPE Online Learning Academy Elementary	Douglas County Re 1	E	1,150	1,201	1,034	921	846		-26.4%	Priority Improvement
HOPE Online Learning Academy High School	Douglas County Re 1	H	458	575	548	589	590		28.8%	AEC: Performance
HOPE Online Learning Academy Middle School	Douglas County Re 1	M	530	587	594	531	489		-7.7%	Improvement
TCA College Pathways	Academy 20	MH	505	508	501	528	522		3.4%	Distinction

Byers 32J authorizes the majority of online charter schools in the state. In the most recent District Performance Framework, they were rated as Accredited: Low Participation. Astravo Academy Middle and High School used to be named Elevate Middle and High School and Astravo Online Academy Elementary, Middle, and High School was previously named Valiant Elementary, Middle, and High School. Due to changes for these schools, it is more difficult to ascertain clear trends.

For those schools who have remained consistent since 2015-16, HOPE Online Learning Academy High School has seen the largest enrollment increases of nearly 30%. HOPE is also identified as an AEC and received the highest rating of AEC: Performance. They are authorized by Douglas County, who has a district rating of Accredited: Low Participation. The other online high school AEC, GOAL Academy, has the second highest enrollment growth with a 22% increase. District 49, their authorizer, was most recently rated as Accredited: Low Participation. Most online charter schools received a rating of Improvement, the second highest rating under the state system. TCA College Pathways is the exception in this group. Based on their overall percent of points earned on the state framework, they belong in the top 25% of schools in the state. Using CSI's rating system, they would be rated Distinction (the highest rating given for CSI schools), noted above. Under the state system, they received a Performance rating. TCA College Pathways' authorizer is Academy 20, which has the highest district accreditation rating given by the state of Accredited with Distinction: Low Participation. None of the multi-district online charter schools in the state currently contract with a for-profit Education Service Provider (ESP).

As a note, HOPE Online Learning Academy Elementary School will be closed for the 2020-21 school year.

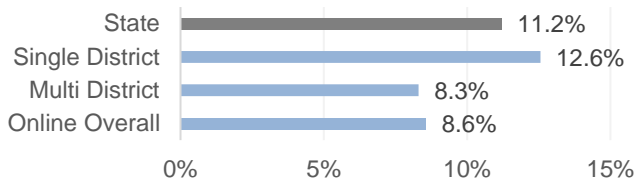

## Population Characteristics

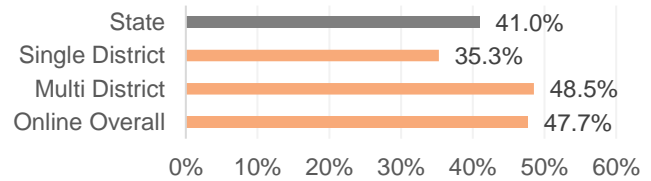

### K-12 Student Demographics

The graphs below show the student demographics for the different types of online school options in Colorado, as well as the state comparison value. Online overall shows the combined student counts for each subgroup for single district and multi-district school options. As of 2019-20, single district online schools enroll a higher percentage of students with disabilities than multi-district online schools and the state average, while multi-district online schools enroll more students eligible for free or reduced price lunch and minority students than single district online schools and the state overall. **Appendix B** shows these values over the past five years. Below are charts displaying 2019-20 demographic data for Online Schools in grades K-12:

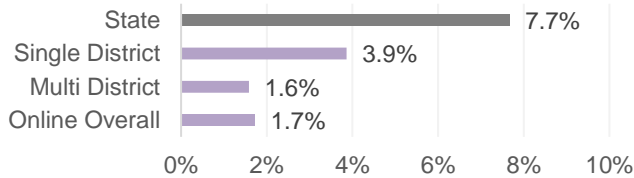

Students with Disabilities

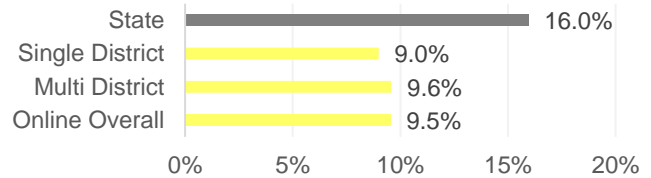

Free or Reduced Price Eligible

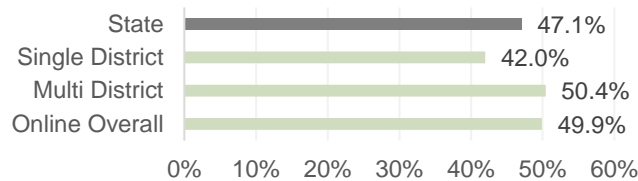

Gifted & Talented

English Learners

Minority Students

## Educational Outcomes

This section of the report discusses educational outcomes for online schools nationally and in Colorado.

### National Outcomes

Online charter schools are a small, but rapidly growing sector in the US education landscape. Research is ongoing to both assess the efficacy of existing online school programs as compared to brick-and-mortar schools, but also between online programs themselves. In 2015, the Center for Research on Educational Outcomes out of Stanford University released a study analyzing academic outcomes of 200,000 online student records across four years across 18 states, including Colorado<sup>1</sup>. The study found that students enrolled in online schools generally exhibit lower academic growth than “virtual twins” - student peers enrolled in brick-and-mortar schools. When comparing schools as a whole, only two percent of the online charter schools outperform their comparison schools, 32 percent perform no differently, and 67 percent have weaker growth than their comparison schools. In math, 88 percent of online charter schools had significantly weaker growth than their comparison and none outperformed their comparison schools. These growth gaps were found to be consistent across student demographics including race and ethnicity, socioeconomic status, special education status, and English learner status, with no particular group demonstrating larger growth deficits compared to their peers in non-online schools<sup>1</sup>.

This study also investigated the relationship between student academic outcomes and the total enrollment of the school (including students in network affiliates), but no significant correlation was found. However, a recent report published in 2019 by the National Education Policy Center from the University of Colorado Boulder investigated the relationship between school performance and Education Management Organization (EMO) involvement and for-profit/nonprofit status. The study found that among virtual schools, far more district-operated virtual schools achieved acceptable state school performance ratings (56.7% acceptable) than charter-operated virtual schools (40.8%). More virtual schools without EMO involvement performed well (59.3% acceptable ratings), compared with 50% acceptable ratings for virtual schools operated by nonprofit EMOs, and only 29.8% acceptable ratings for virtual schools operated by for-profit EMOs<sup>2</sup>.

During the 2017-2018 school year, there were approximately 300,000 students enrolled in full-time online schooling. Of these, 60.1% were enrolled at schools managed by for-profit EMOs, 4.3% at non-profit EMOs, and the remaining 35.6% were enrolled at online schools that were independent of a network (this includes both district and charters)<sup>2</sup>.

## Accountability in Colorado

In Colorado, online schools are evaluated based on their achievement, growth, and postsecondary workforce and readiness outcomes to populate an academic performance rating. This data is publicly reported through each school's School Performance Framework, including Alternative Education Campuses (AEC) who are evaluated under the AEC accountability framework. Performance ratings for schools include (from lowest scoring to highest scoring) Turnaround, Priority Improvement, Improvement, and Performance.

The most recent academic data available for these schools is from the 2018-19 school year (listed as 2019-20 in the chart below). Six online schools were on Performance Watch (for receiving a Turnaround or Priority Improvement rating), which represents 12% of all online schools evaluated. In comparison, 8.4% of non-online schools are on Performance Watch. This value is still an improvement from years prior when, in 2016-17, nearly 20% of online schools received a Priority Improvement rating. For the 2019-20 school year, about 14% of online schools did not receive an academic rating due to "insufficient state data". For non-online schools, less than 2% received an Insufficient State Data plan assignment. In 2019-20, ten online schools were designated as an AEC. Seven of the ten received the highest rating for AECs in the state, AEC: Performance. For more information on past performance, CDE does an extensive review in their Online Summary Report.<sup>3</sup> The chart below lists this data in more detail. **Appendix C** lists the numbers that make up the percentages.

## Performance Plan Types over Time

School District Name	Type	2016-17	2017-18	2018-19	2019-20
Performance Plan	State	67.4%	68.6%	67.7%	68.6%
	Multi-District	56.7%	32.3%	36.1%	50.0%
	Single District	54.5%	50.0%	27.3%	36.4%
	Online Overall	56.1%	37.2%	34.0%	46.9%
Improvement Plan	State	19.7%	19.6%	21.2%	21.6%
	Multi-District	10.0%	22.6%	22.2%	28.9%
	Single District	18.2%	25.0%	18.2%	18.2%
	Online Overall	12.2%	23.3%	21.3%	26.5%
Priority Improvement Plan	State	6.5%	7.1%	6.5%	6.2%
	Multi-District	20.0%	22.6%	11.1%	10.5%
	Single District	18.2%	0.0%	9.1%	18.2%
	Online Overall	19.5%	16.3%	10.6%	12.2%
Turnaround Plan	State	3.3%	2.2%	2.5%	2.2%
	Multi-District	0.0%	0.0%	2.8%	0.0%
	Single District	0.0%	0.0%	0.0%	0.0%
	Online Overall	0.0%	0.0%	2.1%	0.0%
Insufficient State Data	State	3.1%	2.5%	2.2%	1.5%
	Multi-District	13.3%	22.6%	27.8%	10.5%
	Single District	9.1%	25.0%	45.5%	27.3%
	Online Overall	12.2%	23.3%	31.9%	14.3%

Note: Includes Alternative Education Campuses. Excludes closed schools.

Since single-district online programs do not have unique school codes, accountability for those students is held at the brick and mortar school within the school district that serves as the official enrollment school for the student. Therefore, online programs are not included in the chart above.

<sup>3</sup> Please consult CDE's 2019 Online Summary report:

[http://www.cde.state.co.us/sites/default/files/docs/onlinelearning/Final\\_Summary%20Report%20for%20Online%20Schools%20and%20Programs.pdf](http://www.cde.state.co.us/sites/default/files/docs/onlinelearning/Final_Summary%20Report%20for%20Online%20Schools%20and%20Programs.pdf)

When viewing this data by level, a trend emerges for schools with elementary programs. 40% of online schools serving only elementary grade levels received a Priority Improvement rating, comparing to 6% of schools in the state. In comparison, 12% of online schools serving only high school grades received this rating. The other 40% of online elementary schools received an Improvement rating, and the final 20% received a Performance rating. Trends over time show that consistently elementary only schools receive lower ratings than online schools serving upper grade levels. See below for more detail. **Appendix C** includes the number of schools.

## Performance Plan Types over Time by Level

School District Name	Type	2016-17	2017-18	2018-19	2019-20

	EMH	30.8%	23.1%	23.1%	23.1%

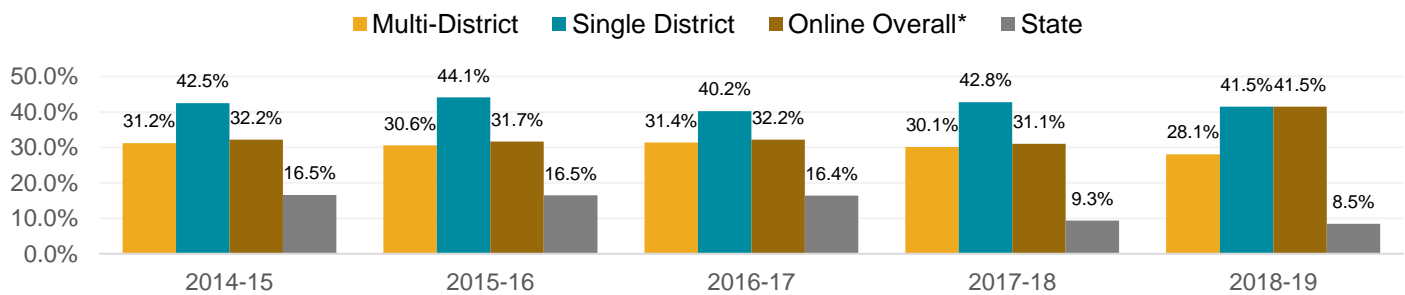

Note: Includes Alternative Education Campuses. Excludes closed schools.

## Mobility Rates

According to CDE, “a student is considered mobile any time he or she enters or exits a school or district in a manner that is not part of the normal educational progression (i.e. normal advancing grades between academic years, matriculating between elementary, middle and high school, or exiting as graduated or completed)”<sup>4</sup>. Below is a chart that highlights mobility rates for all students (unduplicated) enrolled in either multi-district or single district online schools in Colorado since the 2014-15 school year. Compared to the state, students in online schools are highly mobile. In the past five years, mobility rates have increased for online schools overall (from 32.2% to 41.5% overall) while statewide mobility rates have decreased (from 16.5% to 8.5%).

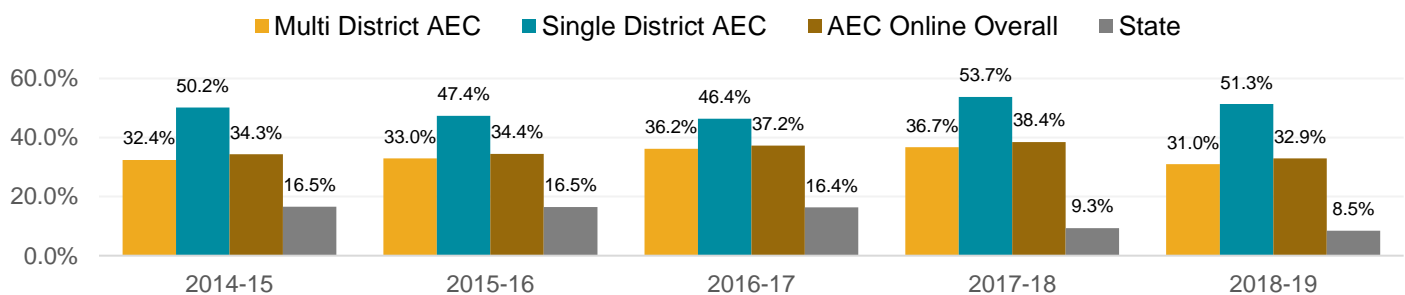

**Appendix D** provides a more extensive overview of mobility rates, mobility incidence rates, and stability rates by school.

### Mobility Rates by School Type (Overall)

In 2019-20, 43.6% of students attending online schools in Colorado were enrolled in an Alternative Education Campus (AEC). The data below presents this information disaggregated by online AEC and online non-AEC schools. Because such a large proportion of the population attend AECs (who are statutorily required to enroll at least 90% high risk students), the data below provides breakdowns by AEC and non-AEC for mobility, dropout, and graduation rates.

### Mobility Rates by School Type (AEC)

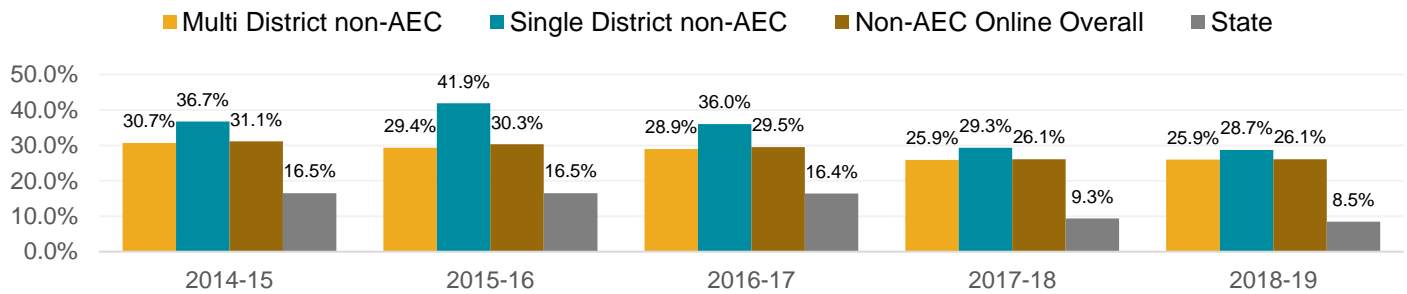

Mobility rates for only online AEC schools in Colorado are substantially higher than the state. Single district online AEC schools have higher mobility rates than multi-district online AEC schools. Overall, over 30% of students in online AEC schools were mobile during the 2018-19 school year, more than 50% were mobile in single district online AEC schools.

<sup>4</sup> Please consult CDE’s report about “Understanding Mobility Rates” here for additional information about the way mobility rates are calculated: <https://www.cde.state.co.us/sites/default/files/documents/onlinelearning/download/mobilityinfo.pdf>

For non-AEC online schools, these patterns are similar. Overall mobility rates for non-AEC online schools do not differ largely from online AEC schools. Around 26% of students in the 2018-19 school year were mobile. Single district non-AEC online school mobility rates, however, are not as high as AEC counterparts, by around 20 percentage points. Still, online non-AEC schools demonstrate much higher mobility than the state overall.

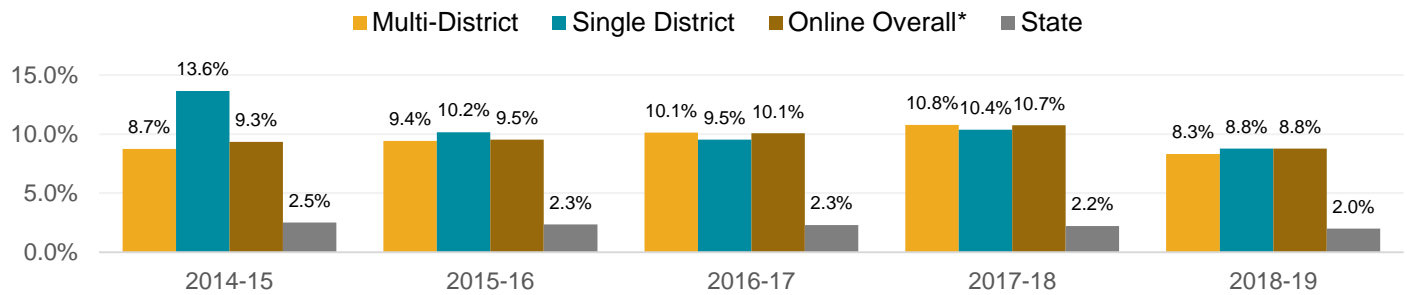

## Mobility Rates by School Type (non-AEC)

## Dropout Rates

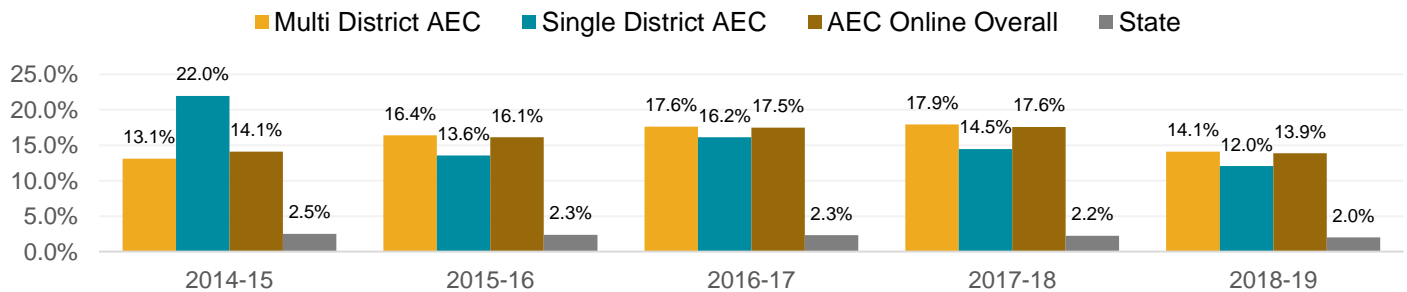

Below is a chart that highlights dropout rates for all students enrolled in either multi-district or single district online schools in Colorado since the 2014-15 school year. Compared to the state, online schools overall demonstrate substantially higher dropout rates. In the past five years, dropout rates have decreased slightly (from 9.3% to 8.8% overall). Even still, the state average is four times lower than online schools overall.

## Dropout Rates by School Type (Overall)

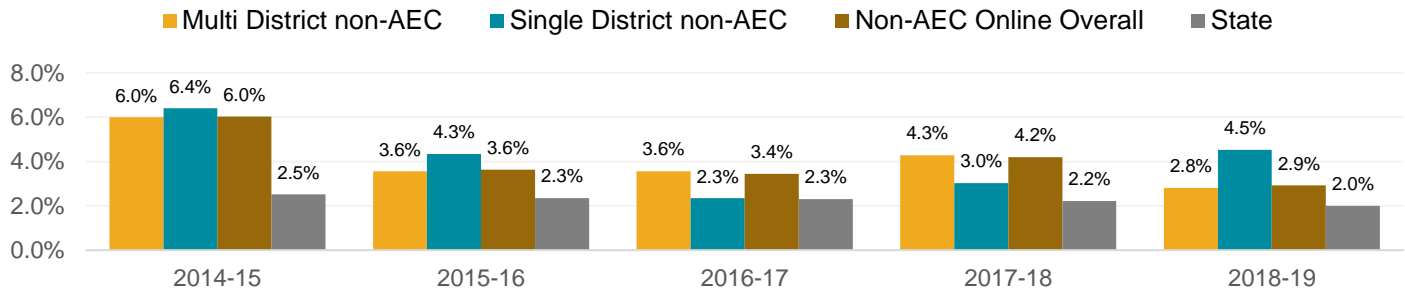

Below are dropout rates by AEC and non-AEC online schools.

## Dropout Rates by School Type (AEC)

## Dropout Rates by School Type (non-AEC)

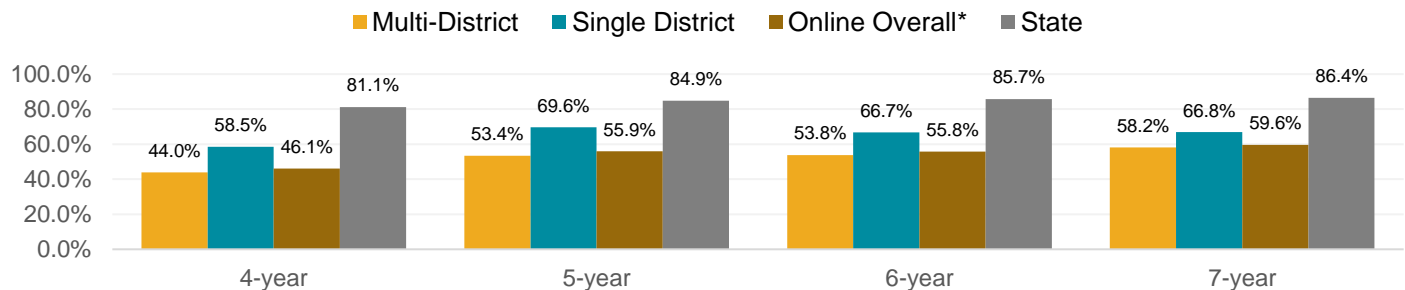

As shown by the graphs above, AECs demonstrate substantially higher dropout rates than non-AECs. Over the past four years, dropout rates for multi-district AECs were higher than dropout rates for single district AECs. Overall, dropout rates for online AECs are 11 percentage points higher than online non-AEC dropout rates.

## Graduation Rates

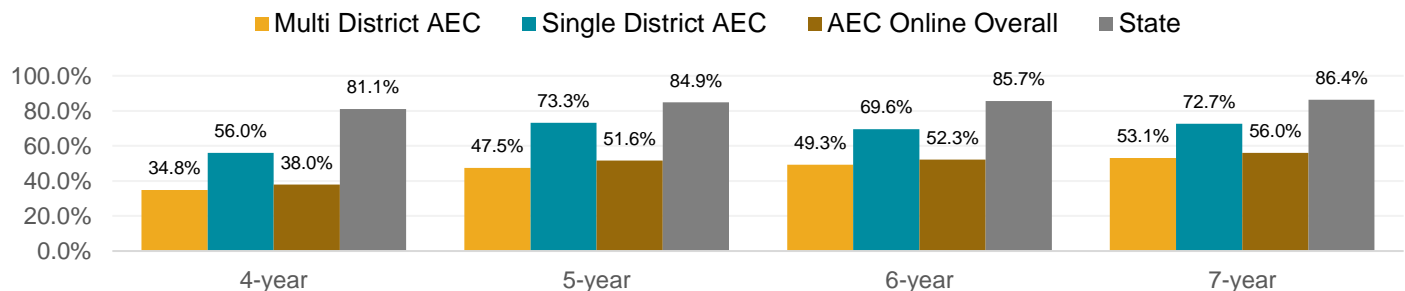

Below is a chart that highlights graduation rates for all students enrolled in either multi-district or single district online schools in Colorado during the 2018-19 school year. Similar to dropout rates, graduation rates reflect a stark difference from the state average. 4-year, 5-year, 6-year, and 7-year graduation rates are substantially lower than the state. The Best Of graduation rate for multi-district online schools is the 7-year rate of 58.2% while the Best Of rate for single district online schools is slightly higher at 69.6% (using the 5-year rate).

## 2018-19 Graduation Rates by School Type (Overall)

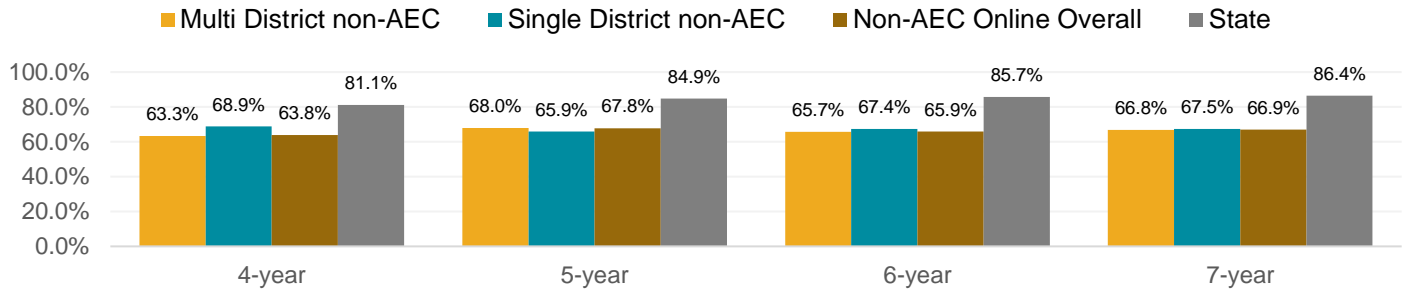

Below are breakdowns by online AEC and online non-AEC schools.

## 2018-19 Graduation Rates by School Type (AEC)

Multi-district AEC online schools have substantially lower graduation rates than the state and single district AEC schools. The Best Of rate for AEC online schools overall is the 7-year rate of 56%. Non-AEC online schools graduation rates are also below the state, by nearly 20 percentage points.

## 2018-19 Graduation Rates by School Type (non-AEC)

# Appendix A. Full List of Schools in the Online Schools School Cohort

#	District Name	School Name	Type	Level	Education Service Provider	2018-19 Enrollment	5yr % Change	2018-19 CSI Modified Rating	Statewide Percentile Rank
