Nine CSI Charter Schools Earn Performance with Distinction Rating

Denver, CO (December 14, 2021) – Nine charter schools authorized by the [Colorado Charter School Institute](http://www.csi.state.co.us) (CSI) earned “Performance with Distinction” ratings for the 2020-2021 school year. Schools that receive this rating rank in the top 25% of all schools in Colorado with reportable academic data and have demonstrated strong financial and organizational performance as well.

CSI assigns schools a performance rating each year based on academic, financial, and organizational performance from the previous school year. The CSI performance framework aligns with the state framework but adds a “Performance with Distinction” rating beyond the state’s top rating of “Performance”.

The suspension of state assessments during the 2019-2020 school year and limited assessment administration in the 2020-2021 school year created a gap in the evaluation of academic performance for accountability. The base accreditation ratings from 2019, which were determined by academic performance during the 2018-19 school year, were maintained and became the base accreditation rating for 2020 and 2021. CSI still evaluated financial and organizational performance for the 2020-2021 school year.

CSI Executive Director Dr. Terry Croy Lewis shares: “Although certain adjustments to the accountability process have been necessary given the available data, CSI has remained committed to its model authorizing practices. We have worked closely with all our schools to continue to let them know how they are doing and provided resources to help schools remain responsive to their communities, while ensuring public transparency.”

About the Colorado Charter School Institute (CSI)

CSI is a statewide charter public school authorizer in Colorado, currently authorizing 42 schools from Towaoc to Steamboat Springs, Grand Junction to Colorado Springs and serving over 20,000 PK-12 students. As a charter authorizer, CSI focuses on the outputs—that is, the quantitative evaluation of academic, organizational, and financial school performance—providing schools the flexibility to focus on and make decisions about inputs like instructional strategies, educational programming, internal assessment system, facility selection, and staffing. The focus on outcomes rather than processes allows CSI to be neutral on educational model and maintain a diverse portfolio of school models, which include Classical, Early College, Alternative, and Montessori models.
