## Background on Charter School Renewal

The authority to operate a charter school is granted through a limited-term, renewable contract. Contract renewal is not automatic – it must be earned through strong academic results, financial viability, and operational effectiveness. Charter schools are built around the promise of greater autonomy in exchange for greater accountability, and the renewal process provides an opportunity to review the charter school's prior performance. A strong renewal process is critical to protect charter school autonomy, student rights, and the public interest, and ensures that schools are held to high standards.

### Charter Renewal Timing

Upon initial approval as a charter school, the charter school receives authority to operate for a period of up to five years. Prior to the expiration of the initial charter contract, the charter school has the right to apply for the renewal of the initial charter. The charter renewal process primarily occurs during the last year of the charter term. An example charter renewal timeline is included below using a school with a five-year contract.

#### Sample Charter School Renewal Timeline for a 5-year Contract

Charter Contract July 1, 2018 – June 30, 2023

<b>2017-2018</b>	First year under charter contract
<b>2018-2019</b>	Second year under charter contract
<b>2019-2020</b>	Third year under charter contract
<b>2020-2021</b>	Fourth year under charter contract Begin renewal process in the spring
<b>2021-2022</b>	Fifth year under charter contract Renewal process occurs in summer/fall with board action in December Contract finalized in the spring and executed prior to May
<b>2022-2023</b>	First year under renewed charter contract

The CSI Renewal Handbook provides school leaders and school board members with a clear overview and description of the charter renewal process.

### CSI Charter Renewal Process Overview

The primary driver of the renewal evaluation is the CSI Annual Review of Schools. The CSI Annual Review of Schools (CARS) is the system used to annually evaluate and accredit schools based on the CSI Academic, Financial, and Organizational Performance Frameworks. CARS builds upon the evaluation lens utilized by the State—which evaluates academic achievement, academic growth, and postsecondary and workforce readiness—by including additional measures related to academic, financial, and organizational performance to provide a more

comprehensive and robust evaluation that includes strong indicators of charter viability and sustainability.

While the majority of the renewal evaluation is based on the evidence of school performance over the charter term, the CSI charter renewal process provides schools with the opportunity to present new or supplemental evidence around school performance in the areas of academics, finances, and organization/governance outside of the information annually captured in the CARS Report.

The CSI charter renewal process is broken into three phases that are designed to streamline the process and align various components of the charter renewal process with ongoing school processes.

The information gathered during the renewal process will help to augment the CSI Renewal Report, in addition to the information included in the CARS Report and existing body of evidence, and may serve to inform the renewal contract, identify areas of needed CSI support, and/or update CSI records.

### School Board and School Leader Roles

The renewal process requires the involvement of both the school leader and the school board. While the school leader will be the main point of contact throughout the renewal, the school board should expect to be engaged with the renewal process regularly, especially when interacting with the CSI Board of Directors. In addition, many school leaders will include members of their leadership team and other key school staff (finance/business manager, instructional coach, school accountability committee, etc.) in the renewal process.

A high-level overview of the roles of each party is outlined below; however, there is overlap between the parties, and the school leader should be involved in the work of the school board, and the school board should review/approve the material developed by the school leader.

School Leadership	School Board
Academic submission	Strategic planning
Financial submission	Board meeting and minutes checklist
Organizational/governance submission	Board self-evaluation
Waiver & policy review	Waiver & policy review
Engagement with CSI staff and board	Engagement with CSI board

This handbook breaks the renewal process up into three phases and presents an overview as well as a more detailed description of the various actions and steps related to submissions.
